

SKAGIT WATERSHED COUNCIL

2012 Salmon Recovery Funding Board Round

Skagit Project Prioritization Process

For Use in the Prioritization Meeting on June 28, 2012

The Project Prioritization Group* will rely on the two- stepped technical review process conducted by the Council's Work Group. The list produced by the technical scoring will provide the basis for prioritization. The Project Prioritization Group will use a qualitative strategic questioning process, using the following questions, to arrive at the final list for submittal to the Salmon Recovery Funding Board.

- Are there projects that give you pause? Why?
- Is there a particular project that offers an opportunity for concrete engagement or support-building with the broader community?
- Does a particular project significantly advance other community interests or otherwise advance the Council's mission?
- Would a particular project be a "lost opportunity" if not funded this round?
- Does the list reflect what you believe to be the priorities of the Council?
- Other?

*A collective effort, full participation by all. No exclusion for "conflict of interest"
